NAHÎWIN
CONSULTING GROUP

CAPABILITY STATEMENT

The trusted layer where Government, Industry and Indigenous communities meet.

Government has the mandate. Industry has the capability. Indigenous communities hold authority over their lands, data and decisions. Nahîwin works in the space between them, so commitments are clear, partnerships are fundable and outcomes can be proven.

Common Ground. Shared Success. Skillfully Delivered.

Indigenous-owned. Red River Métis Business Directory verified and PSIB-eligible.

Nahîwin is fully compliant to bid and be awarded under Procurement Strategy for Indigenous Business (PSIB) rules, providing government, industry partners and Indigenous communities with a verified Indigenous business option for federal procurement and partnership opportunities.

HOW WE WORK

Govern. Convene. Prove.

We govern
Decision rights, commitments and evidence, designed up front.

We convene
Partners, funders and communities brought into one workable structure.

We prove
Audit-ready outcomes every party can verify.

WHAT WE OFFER

Four offers, built around what you need.

SHARED SUCCESS

AI, Data Sovereignty & Governance
Adopt AI on sensitive data with governance and evidence that show who controls what.

SKILLFULLY DELIVERED

IPP & ITB Commitments
Build, track and evidence Indigenous Participation (IPP) and Industrial and Technological Benefits (ITB) commitments, with accountable owners and audit-ready records.

COMMON GROUND

Community Readiness Assessments
Ready for what comes next. Get communities and organizations ready to be funded: governance, finance, infrastructure and planning.

SHARED SUCCESS

Strategic Advisory
Long-term visioning and business planning, and strategy that brings partners, funders and anchor organizations into one fundable structure.

WHAT WE DO FOR YOU

Three parties. One shared path.

For Government
Commitments you can verify.

We help build, track and evidence Indigenous participation commitments, and design governance and data approaches that show who controls what.

For Industry and primes
Partnerships built to deliver.

Indigenous participation that is credible and well governed. We build participation plans, run the governance workstream, and bring the right partners to the table.

For Indigenous communities
Authority stays with you.

We assess readiness, support funding and partnership structures, and help you decide how your data is governed.

HOW WE DELIVER

What you can rely on.

Senior-led. Specialist-supported. Accountable for outcomes.

Every engagement is led by senior advisors with direct experience in governance, major projects and Indigenous partnership. We add specialist expertise as the work requires, and we remain accountable for results from design through implementation.

Commitments you can check.

Each commitment has a named owner and reviewable evidence, so you can see what was promised and what was delivered.

Named leadership.

John Longbottom, President & CEO and Founder, leads the company.

Delivery partners with agreed roles.

Where a scope needs deep technical delivery, we work with established partners, with roles agreed up front.

WHERE WE WORK

Sectors we focus on

- Defence and security
- Maritime
- Major projects
- Indigenous economic development
- Public-sector AI and data sovereignty

TECHNOLOGY

Vendor-neutral by design

Nahîwin is hardware- and vendor-agnostic. We work across the major enterprise technology ecosystems, including compute, storage, data protection, networking and security, and open-source platforms. That lets us recommend and source the solution that fits your requirements, your security posture and your sovereignty needs, not a single vendor's catalogue.
